**Application as Business Intelligence Specialist, Data Enthusiast**

Dear Colleagues,

the desire to support data-driven decision-making processes and create added value through targeted analysis has always driven me. Your company offers exactly the platform on which I would like to deep and apply my passion for data analysis and strategy.

Now I am looking for a new challenge to develop and advance my career in BI analytics. I am sure that with my great curiosity for new areas of work I can successfully work in your team and would like to take my professional activities to a next level.

I am proficient in using a variety of business intelligence tools including Microsoft Power BI, Tableau, Looker and have strong knowledge of ETL, data transformation and cleaning, modeling, calculations, visualizations, RLS security and end-user training.

Furthermore, I have strong analytical skills, a high level of detail orientation and the ability to communicate complex issues in an understandable way.

I believe that with my skills and passion for data-driven decision making, I can be a valuable addition to your team and contribute to the further development of your business intelligence strategy.

I look forward to speaking with you in an interview about how I can help your organization in the role of Business Intelligence Specialist, Data Enthusiast.

With kind regards,  
Iryna Chyzh
